INTRODUCTION TO META BINGO

The team and I, realizing that our audience will be very different, have tried to convey our idea in the simplest possible terms.

Now the classic game of millions of people is available for earnings, mining, and just for interesting way of spending time. We are always ready to answer any your questions in our official social networks. Let's get started and make this world more interesting.

The game known to millions had been originated in Italy. Bingo has a very interesting history. At first it had been called as Lo Giuoco Del Lotto D'Italia and had been mentioned in the sources of 1530. The term "lotto" is translated as "fate, destiny".

One day, one Italian city had been mired in corruption, so it had been decided to elect a governor "as fate had willed." The parties had decided to take out numbers in random order, one of which had determined the new governor. The game had been modernized by American businessman Edwin Lowe. In times of the financial crisis, his children's toy company had to close down. So Lowe had started looking for a new business.

Yes, we are the ones who will do it! We are giving a new breath to the classic game with a century history, we will give an opportunity to get acquainted with Bingo to a young progressive generation, we continue an unfinished history.... For you, a completely new unparalleled game META BINGO. You heard right Bingo is now Crypto.

PROJECT CONCEPTION

The global idea of the project is creating an opportunity for you to play a simple and understandable game, at the same time receiving a win in the form of our \$BNG token, as well as bonuses and gifts in the form of our unique NFTs.

We want to revive a wonderful game that, with the help of the crypto world with that we are already familiar, will become “the number 1” game for future generations. We will change your passion into your money. META BINGO CLUB has set itself the task of making Bingo accessible to everyone.

PROJECT GOALS

- Bringing Bingo to the crypto world, our team sets itself the following goals:
- Popularizing the classic game of Bingo and giving it a new meaning
- Creation of a platform where people from different parts of the world will gather, united by one idea of the game and profit.
- Creation of a powerful and numerical community in our club. People who can influence the course of history and the behavior of the cryptocurrency market
- To show everyone a new cryptocurrency mining opportunity through the simplest manipulation
- To offer the world a new solution for exchanging passion for earnings

Fans of Bingo classics

There are not so many opportunities, places, or platforms for Bingo lovers today where they can spend several hours with their favorite game. With our project, we will give them such an opportunity 24/7

Crypto Community

We can't ignore the fact that not every person in the world will play our game, not everyone will be interested in the game itself, but the opportunity to receive profitably and soon to exchange their savings of our token, our NFTs will certainly attract attention. Membership in our club solves this problem.

Gamers

For young people who can't imagine their life without a game, adrenaline, excitement, of course, there is a niche in our club. Moreover, we will teach you how to get profit in return for the time spent, a nice bonus without any investment. Just play, after, just take it.

Investors

For people with investment experience, we offer the opportunity to invest in a new and promising \$BNG token, as well as the opportunity to earn by receiving daily profit from owning an NFT card.

PROJECT AUDIENCE

META BINGO is the game based on AI, that will be available to our users both in Android and iOS mobile applications as well as in a computer browser. Smart contracts that have been written by our developers are responsible for all transactions related to the movement of the \$BNG token and our NFTs. The mechanics of the game will be very simple and accessible to every person on the planet. Those who are familiar with classic Bingo will immediately be able to immerse themselves in the gameplay. Only a piece of progress has been added.

The goal of the game and at the same time the win in it, as in the classic Bingo, will be a filled card that consists of 24 numbers. The reward will be a profit in the form of \$BNG token, prize cards and NFT. There are also many tournaments for regular players and investors in the game.

• The player enters the game

When the player enters or the application on the metabingo.club smartphone, the player first of all connects his MetaMask wallet, thereby showing the presence of either a free mint card or a game card and, based on the availability of NFT, gets access to the site.

The player creates a game, indicates its name, sets the rate, and the number of game cards in the game, selects from the available cards those that he wants to play with or enters an already created pool in accordance with his rank.

Players who have created their own social circle can create a game with a password, with the ability to adjust bets and play only with friends.

Access to the game will be provided by the player who has created the game using a pin code. The rules of the game inside the pool remain unchanged (see the game in the pool silver, gold, platinum, brilliant).

INTERPLAY OF THE WALLET

The amount of certain tokens or \$BNG is deducted from the metamask in accordance with the specified bet of the game, waits when the other players will join, each player who has entered puts a bet that is determined by the creator of the game and selects game cards from the list of available cards. If the number of cards that a player has is less than that specified in the game, then entry into the game is not available.

CREATING A GAME

In the game interface there will be a list of games created by players and / or tournaments where the name of the game, bet, the number of game cards and players, the maximum number of players “6” at one table will be indicated. The some of all bets will be the prize fund, with the exception of the Jack-Pot savings fund, as well as commission to the liquidity fund. (see Economics section).

The prize fund will be displayed in the game interface, and it will be reduced when the winnings are paid out to each player after pressing the BINGO button.

GAME PROGRESS

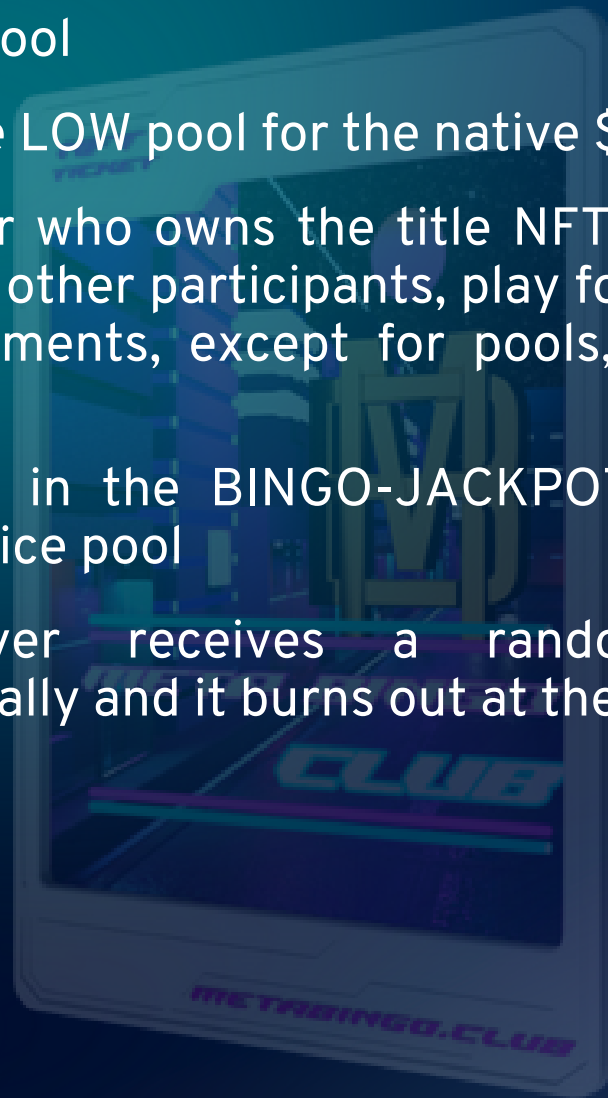

1. The playing field displays a dial with drop-down numbers. The player sees only his game card.
2. The player crosses out the numbers manually. The numbers drop out at a constant rate in 4 second intervals. Closing the figure is available within 12 seconds from the time when the number is announced. Closed numbers are marked with a cross.
3. When the entire card is closed, the player has the opportunity to press the Bingo button, when he has pressed, he receives a win and stops participating in the game. In this case, it is possible to observe further the progress of the game.
4. The player who has closed the entire card receives the entire prize pool.

BNG giveaway function for game NFT owners (staking) - the owner of the purchased NFT card will receive a certain amount of \$BNG tokens for participating in games, depending on the rank of the NFT.

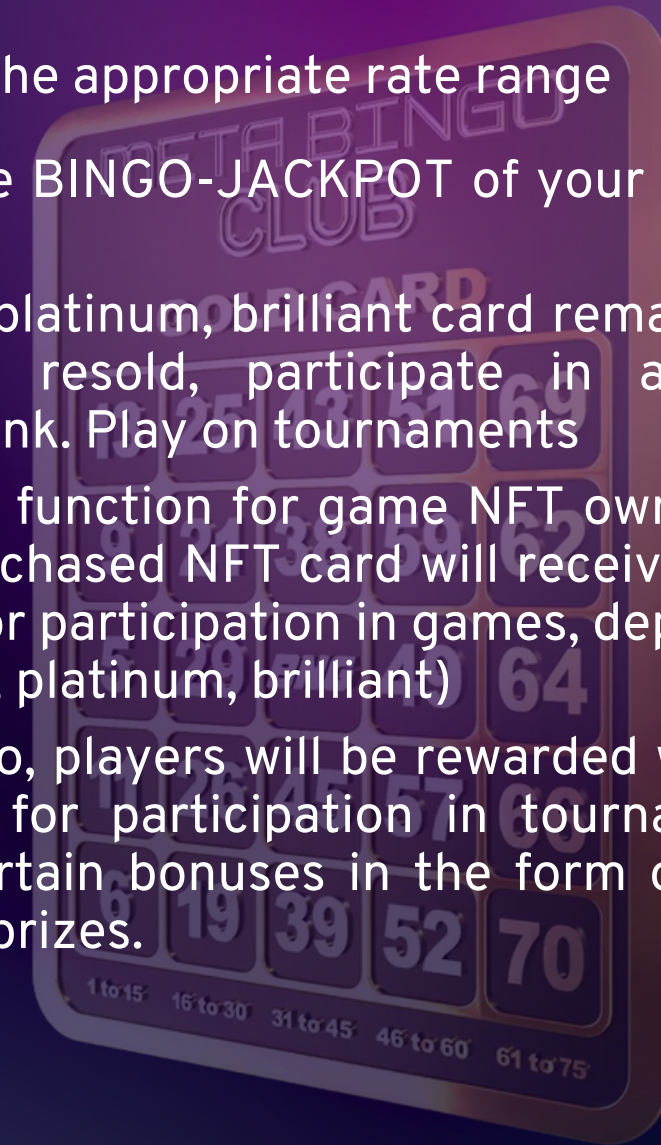

TITLE NFT PLAYERS CAN:

- Enter the game
- Create a pool
- Play in the LOW pool for the native \$BNG token
- The player who owns the title NFT can, on an equal basis with other participants, play for any stakes, play on tournaments, except for pools, in sections with paid NFTs
- Take part in the BINGO-JACKPOT drawing of the general price pool
- The player receives a random game card automatically and it burns out at the end of the game

GAME NFT PLAYERS CAN:

- Enter the game according to your rank (silver, gold, platinum, brilliant)
- Create a pool in the appropriate rate range
- Participate in the BINGO-JACKPOT of your price pool or lower price pool.
- The silver, gold, platinum, brilliant card remains with the owner and/or can be resold, participate in any game of the corresponding rank. Play on tournaments
- BNG distribution function for game NFT owners (staking) - the owner of the purchased NFT card will receive a certain amount of \$BNG token for participation in games, depending on the NFT rank (silver, gold, platinum, brilliant)
- Ranked NFT: Also, players will be rewarded with ranked unique NFTs, including for participation in tournaments, which will bring players certain bonuses in the form of receiving a BNG token and other prizes.

Play-Off tournaments and JACKPOT game are held monthly.
For each game POOL, a separate prize fund will be formed, from deductions from the game rates of each individual price pool, in the amount of 2% of each played game.
The game takes place according to the rules of Bingo, except for the closing of lines (1,2,3 lines). Only a completely closed game card will be counted.
NFT tournament is being held at discretion of the administration, the prize fund is the receipt of paid or ranked NFT.

GAME POOLS

Low POOL

Game at low rates (0,01-10 \$BNG) for the holders of Titles NFT, Silver, Gold, Platinum, Brilliant.

Silver POOL

Game at average rates (0,01-30 \$BNG) for the holders of Titles NFT Silver, Gold, Platinum, Brilliant.

Gold POOL

Game at higher rates (0,01-50 \$BNG) for the holders of Titles NFT Gold, Platinum, Brilliant.

Platinum POOL

Game at high rates (0,01-100 \$BNG) for the holders of Titles NFT Platinum, Brilliant.

Brilliant POOL

Game with premium rates (0,01-unlimited \$BNG) only for the holders of Titles NFT Brilliant.

META BINGO GAME RULES

Players owning a title or paid NFT are allowed to play.

The game involves a lottery drum with 75 numbered balls that fall out randomly. The number drawn is marked on the card by each player. The goal of the game is to fill the set figure or the entire playing field with numbers. The winner is the player who closed a certain figure or the entire card. The game has the following figures: “Line horizontal”, “Line vertical” and “Fully closed card”

Closed 1 horizontal line
(counts both vertically
and horizontally)

Closed 1 vertical line or
2 lines (counts both
vertically and
horizontally)

3 lines closed (counted
both vertically and
horizontally or
combined)

The whole card is
closed
max win

Horizontal and vertical lines can be situated in different positions. A winning card is counted on which the vertical and/or horizontal line is completely filled. The player who has filled in one of the figures can leave the game having received the corresponding win or continue the game while refusing to pay the winnings for the filled figure (“a line”, “two lines” or “three lines”). To indicate the exit from the game (if there is a win), the player presses the “BINGO” button. The game session is considered completed after the victory of one of the players (closing the full field) or after all the balls have fallen out of the our lottery generator.

HOLDER REWARDS (NFT STAKING)

The first 20.000 players who mint the title NFT will receive a free 50 \$BNG as a bonus.

GAME ECONOMICS

98% for Players and Community

- 
- 
- 2% - platform commission (maintenance of game servers)
 - 3% - of the played pot forms a jackpot accumulative bank, which is regularly played out among the players
 - 5% - the bank forms a liquidity fund of the \$BNG token (permanent increase in the value of the token)

90% - of the pot being played will be distributed among the players

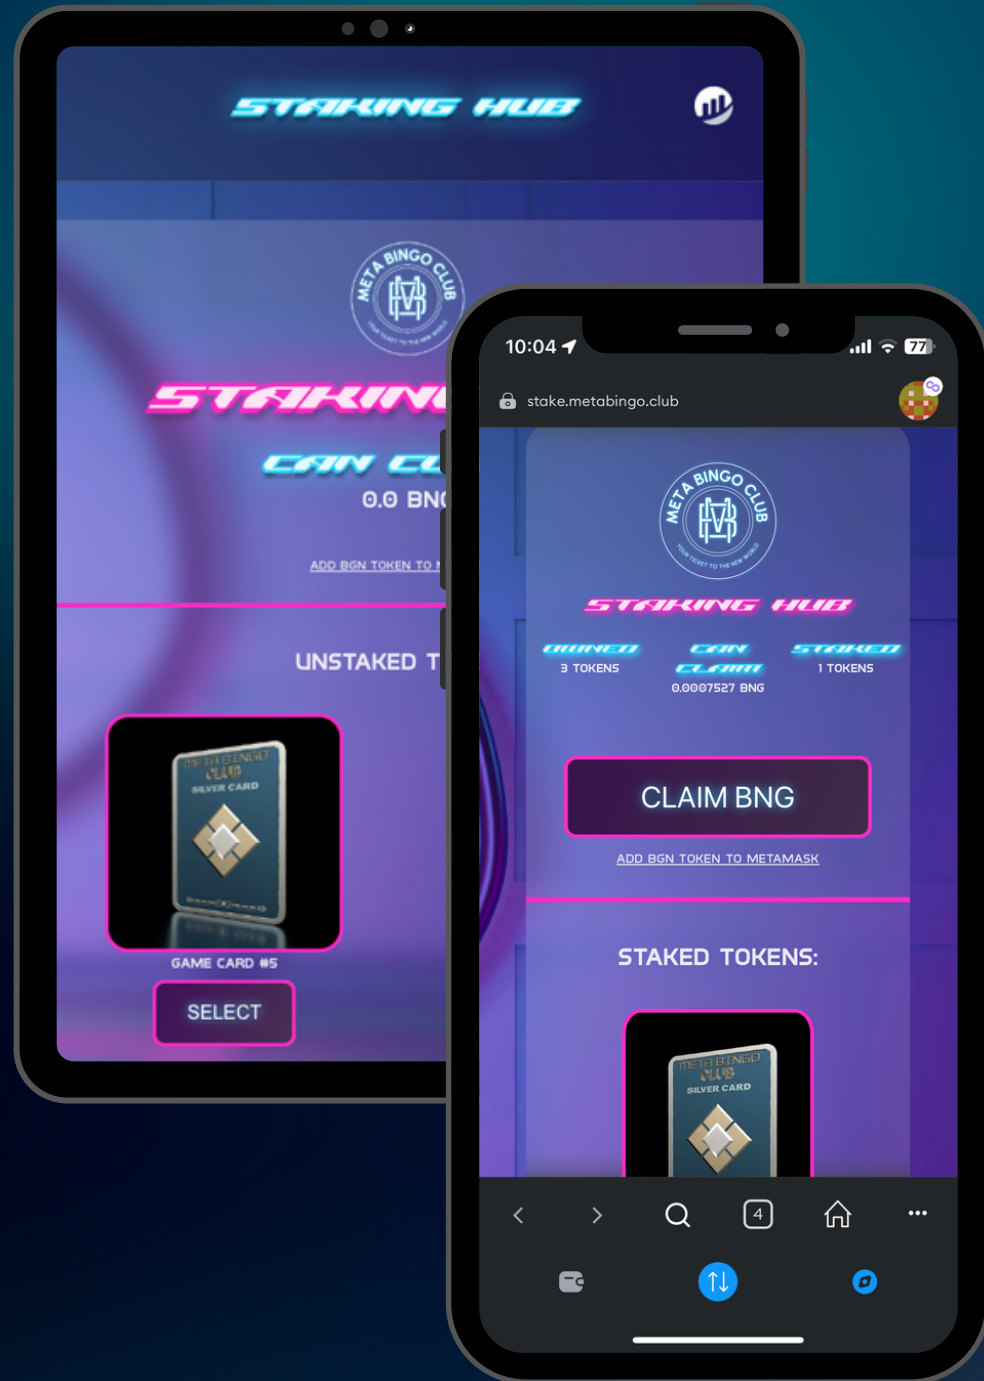

MINING DAPP

Absolutely everyone can easily become a part of the big META BINGO CLUB family.

We have created a staking page that will allow you to earn our BNG token on a completely passive basis. Convenient and clear design, the presence of staking functions and the withdrawal of tokens every minute.

The \$BNG token is the first step to wealth as our team has worked hard to empower every person on the planet. The main condition for starting mining: this is the mint of our NFT card, the mining speed increases when buying more NFT cards, and so on ad infinitum.

In the near future, the BNG token will be listed on Binance, ByBit, KuCoin and OKX crypto exchanges. We do not install token locks. Use the opportunity of mining

POLYGON

For our token, we have chosen the Polygon blockchain ecosystem. And this is not coincidence, just this blockchain has a high degree of decentralization, a low commission, an excellent transaction speed, a number of transactions per second. Also the ability to integrate with Ethereum and DeFi projects that have been already implemented and are working.

BNG

The native token of the META BINGO CLUB project is named after the century-old game of the same name. It carries all the advantages of the blockchain on which it was created. A token that will become in line with BNB and BTC, because of the rapidly growing META BINGO community.
